linkedin.com/in/nasssar | github.com/AhmedNassar7 | ahmednassar7.github.io

Summary

Software Engineer specializing in backend development and open-source contributions. DSF Individual Member and Django core contributor with 10 merged pull requests. Experienced in building systems at global and national scale.

Experience

Beshara Group

Nov 2025 – Present

Java Developer – Full Time

Cairo, Egypt

- Developed enterprise government systems for the Kuwait Civil Service Commission, serving **45+** ministries and **40+** integrated subsystems over **5+** environments using **6-tier** Java EE architecture.
- Added validation blocking unauthorized assignments across **25,100+** jobs and **25,400+** work centers.
- Collaborated with developers, QAs, and POs in Agile/Scrum using Jira for sprint planning and bug validation.
- Tech:** Java · EJB · JSF · Oracle DB · Ajax · Jira · JDeveloper · Git

Django Software Foundation

Jan 2025 – Jan 2026

Open Source Contributor – Volunteer

Remote

- Contributed to Django core, used by **2M+** projects globally, authoring **24 pull requests** with **10 merged**.
- Selected as a **DSF Individual Member** and listed as a Much-Appreciated Contributor in **Django Authors**.
- Enhanced web security** by defaulting to HTTPS and deprecating insecure HTTP fallback.
- Resolved critical Django admin crash** by gracefully handling invalid UUIDs in content types.
- Fixed Django ORM metaclass bug** preventing GenericForeignKey overrides in abstract models.
- Fixed Django test-discovery bug** that silently skipped translation-override test classes.
- Fixed Django 5.2 release-blocking bug** in password validator translation handling.
- Fixed Safari SVG rendering issues** in dark mode for better cross-browser UI compatibility.
- Tech:** Python · Django · JavaScript · CSS · Selenium · Unit/Integration Testing · GitHub Actions · Git

Mercor

Oct 2025 – Dec 2025

Software Engineer – Contract

Remote

- Solved real-world open-source issues in unfamiliar codebases using only official docs, no AI or search allowed.
- Contributed to 2 contracts generating verified human-performance data used in frontier LLM evaluation and training.
- Tech:** Python · JavaScript · Django · Linux · Git · Docker

Nile University

Jul 2025 – Aug 2025

AI Researcher – Internship

Cairo, Egypt

- Co-authored **Research Paper**: *Multi-Stage Pipeline for Course Recommendation via Performance Classification*.
- Built a **3-stage AI Academic Advisor**: rule-based eligibility filtering, XGBoost performance band classification, and Gemini-generated rationales, processing **45K+** graded records across **5.9K+** students.
- Achieved **100%** prerequisite correctness, **77.8%** classification accuracy, **0.27** Interval-Aware MAE, and **84%** LLM fidelity
- Tech:** Python · XGBoost · Gemini API · Pandas · Scikit-learn · Git

Skills

Programming Languages: C++, Java, Python, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: Django, Spring Boot, Node.js, React, Bootstrap, Firebase, Ajax

Tools & Platforms: Git, GitHub, Docker, Kubernetes, Linux, Postman, Jira, Azure, Kafka, Jenkins

Databases: PostgreSQL, SQL, MySQL, SQLite, Oracle DB, MongoDB

Concepts: SOLID Principles, System Design, Design Patterns, Agile, CI/CD, Open Source, RESTful APIs

Education

Modern Academy in Maadi

Sep 2021 – Jun 2025

Bachelor of Computer Science

Cairo, Egypt

- CGPA:** 3.6/4.0
- Graduation Project:** **Egypt Metro Platform** (Grade: A+)
- Relevant Coursework:** Databases, Data Structures, Algorithms, OOP, Operating Systems, Distributed Systems

Projects

Egypt Metro Backend <i>Python · Django · DRF · PostgreSQL · JavaScript · HTML · CSS</i>	GitHub
- Engineered scalable Django backend for Egypt Metro Platform, designed to serve millions of users daily. - Created 60+ RESTful APIs using DRF integrated with Mobile Application, AI Models, and Embedded Systems. - Built online ticketing and subscription systems with QR code, JWT authentication, and payment gateway integration. - Provided real-time train tracking, crowd analytics, and trip details including route, price, and time. - Deployed the backend & AI services, and PostgreSQL database on Render and documented using Swagger/ReDoc.	
PDF Toolkit <i>React · TypeScript · Node.js · Docker · Supabase</i>	GitHub Live
- Shipped 22 client-side PDF tools (merge, split, compress, encrypt, convert), zero server storage, backed by 56 unit tests. - Designed 3-tier conversion pipeline (LibreOffice → Supabase Edge Function → local) with automatic fallback. - Hardened the conversion service for concurrency: isolated LibreOffice profiles, CORS, timeouts.	
Portfolio <i>React · JavaScript · Node.js · Firebase · SCSS · GitHub Actions</i>	GitHub Live
- Built personal website portfolio with animated/interactive backgrounds, dynamic content, smooth scrolling, dark/light themes, fully responsive design, lazy-loading, custom scrollbar, and UI/UX design. - Integrated Firebase for data management, EmailJS for contact forms, Google Analytics for user tracking, SEO optimization with Google Search Console, and automated CI/CD deployment using GitHub Actions.	
Pizza Ordering System <i>Java · SQL</i>	GitHub
- Built pizza ordering system with user authentication, real-time order, and MS SQL Server using Java, and Java Swing. - Implemented Dijkstra's algorithm for optimal delivery routes and dynamically calculate delivery time and charges.	

Achievement

Founder , Software Engineering Community	2024 – Present GitHub Discord
- Created a central hub for Software Engineering opportunities and resources worldwide at FAANG, including internships, open-source contributions, mock interviews, events, hackathons, learning platforms, coding competitions, and more. - GitHub Repository achieved 500+ Stars & 15+ Forks and Discord Server supports over 1000+ Members globally.	
Round 2 Qualifier , Meta Hacker Cup	2025 Certificate
- Ranked 714th / 13,779 (Top 5%) in Round 1, placing in the top 1,000 globally and advanced to Round 2. - Placed 1,126th / 5,972 (Top 19%) in Round 2, finishing in the top 2,000 among global competitors.	
Champion , Enactus Modern Academy	2023 Certificate
Contributed to team that won 1st place out of 20 in Entrepreneurship Competition, pitching business solution to judges.	

Activities

Software Engineer , GDSC Cairo University	Oct 2023 – Sep 2024 Certificate
C++ Developer , GDSC Al-Azhar University	Sep 2023 – Aug 2024 Certificate
IT Specialist , ACES	Oct 2023 – Sep 2024 Certificate
Event Organizer , Techne Summit in Cairo	Certificate 2023 Certificate 2024
